The Story So Far...
GAP Group, the UK’s largest independent plant and tool hirer, has specified the fitment of CESAR security and registration on an order for an additional 170 site dumpers from Terex.

The GAP Group, which operates a nationwide network in excess of 60 depots, ranging in size from 1.0t to 9.0t, will be delivered from early October onwards and will conform to the new Stage IIIb legislation.

NEW SERVICE PROVIDES EQUIPMENT PROVENANCE CHECK

Date: 29/10/2013

Automotive-style equipment provenance checks are available from today thanks to a new online service launched by Datatag in conjunction with the announcement that CTG (COMPAGNIA GENERALE TRATTORI S.p.a.), the exclusive Caterpillar dealer in Italy, will fit CESAR to Cat machines sold in Italy from January 2014.

CESAR joins INTERPOL to tackle vehicle crime

Date: 16/12/2013

Experts from law enforcement and the private sector, including Britain’s Datatag, gathered at INTERPOL’s headquarters to discuss ways to effectively combat the growing problem of vehicle crime.

CESAR SCHEME EXHIBITING AT FIERA AGRICOLA IN VERONA

Date: 06/02/2014

The CESAR Scheme exhibited at 11th FIERA AGRICOLA in VERONA, an International Agricultural Technologies Show, with their Italian distributor MLS (Mechanical Line Solutions).

RURAL CRIMEBEAT

Date: 26/11/2013

Are the police doing enough to tackle rural crime? Natalie Wallace reports on the innovative approach of Thames Valley Police.

Thames Valley Police is taking rural crime very seriously, and to show its commitment to tackling the problem, it has launched a “100 days of action” initiative.

CESAR joins INTERPOL to tackle vehicle crime

Date: 16/12/2013

Experts from law enforcement and the private sector, including Britain’s Datatag, gathered at INTERPOL’s headquarters to discuss ways to effectively combat the growing problem of vehicle crime.
### RECENT NEWS & DEVELOPMENTS

#### AMAZONE WIDEN CESAR PROTECTION
**Date: 22/08/2013**

SALTEX 2013, the highlight of the groundcare events calendar, will see AMAZONE, the specialist for fertiliser spreaders, seed drills, powered and non-powered soil cultivation, precision air seeders and crop protection sprayers roll out CESAR security and registration across its range of groundcare machinery.

#### CESAR ADOPTED BY CHALLENGER AGRI (UK) LTD
**Date: 23/07/2013**

Challenger Agri has announced that it has teamed-up with Datatag to fit the CESAR equipment security and registration system as standard to all its machines for the UK market. The company’s range of subsoilers and single pass cultivators are manufactured on a 5 acre site, near Hull, with in-house design, fabrication, parts manufacturing, assembly and painting. This enables Challenger Agri to produce quality machines at low cost with customer care to the forefront of the business.

#### AITS/DATATAG BTEC LEVEL 3 COURSE IN STOLEN PLANT
**Date: 28/06/2013**

The BTEC Level 3 award, launched in October 2012, covers the identification of stolen plant and machinery. This extremely popular course was held for the fifth time in June 2013 with delegates from The Metropolitan Police, Hampshire and Cheshire constabularies and the two day course equips police officers with the knowledge to tackle opportunistic and professional equipment theft.

#### POLICE AWARE WORKSHOP AT PLANTWORX
**Date: 16/05/2013**

Over 130 serving police officers attended the CESAR organised national police briefing on equipment theft held on the third day of the inaugural PLANTWORX. The delegates heard from a series of equipment security experts, current and former police officers. The speakers informed the audience about the current state of play regarding organised and opportunistic equipment theft and its impact on the construction industry and how the police can make an impact in reducing equipment theft and catching the culprits.

#### CONSTRUCTION EQUIPMENT SECURITY PATHFINDERS RECOGNISED BY THE INDUSTRY
**Date: 16/05/2013**

The Construction Equipment Association (CEA), the organisation behind Plantworx and the only official equipment security scheme CESAR, organised a ‘Police Aware Workshop’ on the final day (May 16th) of the inaugural Plantworx exhibition.

#### CESEAR-IT DAYS HAILED A SUCCESS BY THE POLICE
**Date: 19/08/2013**

Datatag Technician Tim Hollamby and his team are conducting a crusade against equipment theft in conjunction with Thames Valley, Dorset and Hampshire Police.

All three police forces support and promote CESAR-IT days for local farmers which see Tim fit the official CESAR security system to their tractors, telescopic handlers, quad-bikes and other types of equipment. With a spate of rural crime and equipment theft both police forces put their faith in CESAR to act as a powerful deterrent against theft and an invaluable aid in recovery.

#### CONSTRUCTION EQUIPMENT SECURITY PATHFINDERS RECOGNISED BY THE INDUSTRY
**Date: 16/05/2013**

The Construction Equipment Association (CEA), the organisation behind Plantworx and the only official equipment security scheme CESAR, organised a ‘Police Aware Workshop’ on the final day (May 16th) of the inaugural Plantworx exhibition.

#### THEMES VALLEY POLICE BEGIN 100 DAYS OF ACTION TO TACKLE RURAL CRIME
**Date: 02/08/2013**

This year, Thames Valley Police will conduct 100 days of action to tackle rural crime. Each of the ten rural Local Policing Areas (LPAs) will hold 10 days (five in summer, five in winter), of intensive operational and crime prevention activity to tackle rural crime.

#### CESAR SCHEME AND AMAZONE AT CEREALES 2013
**Date: 13/06/2013**

The Datatag team had a busy opening day at CEREALS 2013 near Lincoln. As well as discussing the many benefits of the CESAR scheme with the numerous visitors to the CESAR stand Dave Luscombe found time to call on recent adopters Amazone.

The Amazone Pantera 4001 self-propelled crop protection sprayer (shown in the image) is one of the largest machines to be protected by CESAR in the agricultural market.

#### PLANTWORX SECURITY VILLAGE SHAPES UP
**Date: 22/03/2013**

With less than 50 days to go before the inaugural PLANTWORX exhibitors in the Security Village are announcing their plans for the show. Last week the winners of the CESAR and Datatag sponsored PLANTWORX Security Innovation awards were announced. The winners, Automatrics, will be exhibiting their mtrack Proactive, a self-powered vehicle tracking device at PLANTWORX.

[www.cesarscheme.org](http://www.cesarscheme.org) | enquiries@cesarscheme.org
A stolen British JCB Telescopic Handler, found in Poland, was identified in minutes thanks to CESAR security and registration. The machine’s original manufacturer’s marks and VIN plate had been altered in an attempt to mask the machine’s true identity but the thieves had left the distinctive triangular CESAR registration plates alone.

One call to Datatag’s 24/7 emergency line was all it took for the investigators to establish the true identity and rightful owner of the machine using the unique CESAR registration number.

Datatag ID, the power behind the CESAR scheme initiative, has announced it will be one of the main sponsors of this year’s PLANTWORX Innovation Awards. Plant theft remains a big problem for the industry and this award recognises the most significant entry in terms of preventing a theft of a machine, attachment and equipment or for locating, retrieving and identifying stolen items.

Datatag ID Ltd and the Lancashire Police Constabulary joined forces in October to run a 2-day Rural Crime Workshop at Myerscough Agricultural College in Bilsborrow. Lancashire Police run a very successful farm watch scheme throughout Lancashire with around 1,000 members of the scheme in total.

The event was designed to engage with members of the rural community who are regularly targeted by criminals.

The CESAR scheme, which was launched in 2007, has gone from strength to strength with many leading manufacturers, including Massey Ferguson, John Deere, New Holland and JCB fitting CESAR as standard on equipment sold in the UK. CESAR is the most successful scheme of its type in the world with over 100,000 pieces of equipment now protected.

One call to Datatag’s 24/7 emergency line was all it took for the investigators to establish the true identity and rightful owner of the machine using the unique CESAR registration number.

Datatag ID, the power behind the CESAR scheme initiative, has announced the dates of the final ‘CESAR IT’ days in 2012.

Datatag ID Ltd and the Lancashire Police Constabulary joined forces in October to run a 2-day Rural Crime Workshop at Myerscough Agricultural College in Bilsborrow. Lancashire Police run a very successful farm watch scheme throughout Lancashire with around 1,000 members of the scheme in total.

**RECENT NEWS & DEVELOPMENTS**

**CESAR BENEFITS WITH LAUNCH OF NEW TRAINING COURSE BY DATATAG**

*Date: 13/06/2012*

Datatag, the market leader in equipment security and registration for business and domestic use, has announced the formation of a new Training Division. The new division has announced its first course, The Plant Theft Awareness and Identification Course, which is set for 13th and 14th November 2012. The 2 day course, which will be held in Gloucester, will appeal to a wide range of personal in the police and other branches of law enforcement, including roads police, PCSOs, SOCOs, police vehicle examiners and ports and customs officers. The course is designed to be equally beneficial to loss adjusters and engineers from the insurance sector.

**PLANTWORX COUNTDOWN EVENT A HUGE SUCCESS**

*Date: 01/06/2012*

PLANTWORX Countdown event a huge success - over 150 delegates attended and Lord Henley, Minister for Crime Prevention made guest appearance to talk security and Plant Theft.

PLANTWORX, the new biennial construction exhibition (14th – 16th May 2013, Stoneleigh, Warwickshire) hosted a Countdown event last week, alongside the CITS (Combined Industries Theft Solutions) sixths conference, which discussed the issue surrounding the growing problem of equipment, scrap metal and fuel theft.

**DATATAG RECRUIT NICK MAYELL, EX-TER**

*Date: 04/07/2012*

Datatag, the power behind the official CESAR equipment security and registration scheme and the leading supplier of ‘motorcycle’ security systems, has announced a strengthening of its team with the appointment of Nick Mayell.

Nick is a well-known name in equipment security and police circles having worked for TEA for 18 years.

**CEA TOAST DATATAG’S 20TH BIRTHDAY**

*Date: 28/05/2012*

Datatag, the leader in equipment security and registration, is celebrating its 20th birthday. As recognition of Datatag’s contribution to equipment security Rob Oliver, Chief Executive of the Construction Equipment Association (CEA), presented Kevin Howells, MD of Datatag, with a beautiful cake. The presentation took place at the end of a busy morning at the CEA’s Plantworx Countdown meeting, held in Stoneleigh Park. The inaugural Plantworx construction exhibition, which included a ‘security village’, will take place in May 2013 at Stoneleigh.

**JCB TAKES THE LEAD ON CESAR MARKING FOR BREAKERS**

*Date: 09/05/2012*

JCB today stepped up the battle against construction equipment theft by announcing that seven models in its Hammermaster hydraulic breaker ranges are to get CESAR marking as standard. The move means JCB, which was the first major manufacturer to make CESAR standard on its construction range in 2007, is the only company to offer the anti-theft marking system on its breakers in the UK.

**DATATAG SPONSOR RICHARD NOBLE, THE MAN BEHIND BLOODHOUND SSC**

*Date: 23/05/2012*

Datatag, the company behind the world’s most successful equipment security and registration scheme- CESAR, helped sponsor Richard Noble OBE, pioneer of the Thrust2 programme, to attend the recent CEA ‘Constructing the Future’ conference.

Thrust2 held the world land speed record from October 1983 to September 1997.

**DATATAG RECRUIT VINCE WISE, EX-AVCIS (ACPO VEHICLE CRIME INTELLIGENCE SERVICE)**

*Date: 09/05/2012*

Datatag, the power behind the official CESAR equipment security and registration scheme and the leading supplier of ‘motorcycle’ security systems, has announced a strengthening of its team with the appointment of Vince Wise.

Vince, a serving police officer from 1981 until his retirement from the service this year, is well known in vehicle crime circles.

**DATATAG SUPPORT JCB TEAM ‘END 2 END’ CHALLENGE IN AID OF NSPCC**

*Date: 02/07/2012*

Datatag, the power behind the official CESAR plant security and registration scheme, supported a 4 man team from JCB Attachments in an epic Lands End to John O’Groats cycle ride in aid of the NSPCC charity.

The team, Andy Hayes, Dave Allen, John Salt and Paul Hartshorn, were Datatag emblazoned cycling shirts as they battled the wind and rain on their way north. Dave Allen, who managed the recent adoption of CESAR by JCB Attachments, is having an exciting time recently as he carried the Olympic Torch for one leg of its relay around the UK.

**DATATAG AND DATATAG FEATURE IN Prestigious BIS EXHIBITION**

*Date: 23/05/2012*

The Construction Equipment Association (CEA) is behind the ‘construction equipment industry showcase’ at the Department for Business, Innovation & Skills (BIS) headquarters. The showcase highlights how important the UK construction equipment industry is to Britain’s economy and promotes the forthcoming PLANTWORX construction machinery exhibition (May 2013).

Mark Prisk MP (Minister of State for Business and Enterprise) and Rob Oliver CEO (CEA)

NEW HOLLAND ADOPT AND PROMOTE CESAR AT LAMMA

Date: 10/01/2012

Full-line equipment manufacturer New Holland will exhibit its tractors to the public, equipped with CESAR security registration for the first time at LAMMA, Newark January 2012.

New Holland announced in December that it plans to fit CESAR security systems as standard to machines manufactured in its Basildon, Essex plant from January 2012. Machines to be equipped and registered with CESAR, which acts as a powerful deterrent against theft and an invaluable aid in recovery, include the award-winning T6 and T7 series tractors destined for the UK.

A-Plant, one of the UK’s largest plant, tool, and equipment hire companies, has had a Datatag 4x4 security system fitted to one of its fleet of Ford Ranger service and delivery vehicles. A-Plant hire a vast range of non-operated equipment, from power tools, cement mixers and accommodation units to excavators, compressors, scissor lifts and other types of equipment for industry and construction and the Ford Rangers are used with trailers to deliver equipment to A-Plant customers.

**Datatag Protects 4 x 4’s with Multi Layered Security Technology**

Date: 21/05/2011

Datatag, the market leading security products provider and the power behind the official UK plant security and registration scheme – CESAR, used the Driffield Show, the UK’s largest one day agricultural show, to launch a new security and identification system for all types of 4 x 4 vehicles. Datatag launched the new and innovative security system in conjunction with Humberside Police. Thieves have stolen 19 4x4 vehicles in the last 6 months in the Humberside patch.

**Datatag Raises Funds for Help for Heroes**

Date: 26/05/2011

Datatag, the power behind the official UK plant security and registration scheme CESAR and sponsor of Michael Caine in the 2011 Porsche Carrera Cup GB, raised hundreds of pounds for the Help for Heroes Charity at the Agricultural Engineers Association (AEA) AGM by donating 2 VIP hospitality tickets to the Brands Hatch round of the British Touring Car Championship and Porsche Carrera Cup.

**Datatag and CESAR Tackle Crime Across Europe**

Date: 18/05/2011

The European construction industry suffers the theft of approximately €1.5 billion worth of construction equipment a year with networks of organised criminals behind the majority of crime. Thousands of pieces of stolen equipment, ranging from hand held drills to 30 tonne excavators, are shipped into Eastern Europe and the Baltic states from the UK and other EU states.

**CESAR and Datatag Tackle Crime with a Comprehensive New Solution - Total Farm Protection**

Date: 12/06/2011

Rural crime cost UK farmers £50 million in 2010, according to a survey conducted by NFU Mutual, up 17% on 2009. The top five most stolen items are tools, quad bikes, tractors, oil and diesel, and metal. The number of tractor theft claims dealt with by NFU Mutual rose by 8% in 2010, whilst the cost of claims increased by a massive 21%, reflecting the trend for thieves to steal high value tractors.

**Datag Tag Rolls Into Las Vegas**

Date: 10/03/2011

Datatag, the market leading security products provider and the power behind the official UK plant security and registration scheme – CESAR, is using the giant Consapex exhibition (Las Vegas March 22-26) to introduce the CESAR equipment security and registration scheme to interested parties in the USA. Datatag will target equipment manufacturers, trade associations, and the insurance industry during the 5 day show.

**Datatag and CESAR Tackle Crime**

Date: 21/07/2011

CESAR, the only official UK equipment security and registration scheme, became the most successful and widely used scheme in the world at the turn of the year after achieving 15,000 registrations in 2010 taking the cumulative figure to 40,000. Now, just 7 months later, CESAR has achieved another 20,000 registrations, bringing the total number of machine registrations, in construction and agriculture, to 60,000!

The 60,000th CESAR registration, a Terex PT3000 dumper, was delivered to GAP Plant’s Nottingham branch in August where the machine was immediately put to work on a Sewer Trent construction site at Newthorpe.

**Datatag Protects 4 x 4’s With Multi Layered Security Technology**

Date: 23/05/2011

Construction equipment theft is a growing problem in the USA. Insurance sources say theft costs construction companies up to $1 billion per year in lost assets. Professional thieves see construction equipment theft as a low-risk, high-reward opportunity. Typically, the risk of being caught is low because equipment is difficult to trace and is often located on remote, unsecured jobsites.

**Datatag Protects 4 x 4’s With Multi Layered Security Technology**

Date: 23/08/2011

Datatag, the market leading security products provider and the power behind the official UK plant security and registration scheme – CESAR, is promoting CESAR at Cereals 2011, being held this year near Lincoln.

**Volvo Minis CESAR Marked**

Date: 25/02/2011

Volvo Construction Equipment announced, at the opening of the Executive Hire Show, that 4 of its range of mini-excavators will be protected with CESAR security and registration. Construction machines are now 4 times more likely to be stolen than a car in the UK and mini-excavators are the most commonly stolen type, with over 800 stolen in the past 2 years, and so the move is a logical one!

**CESAR Hits 60,000 Registrations**

Date: 21/05/2011

Datatag, the market leading security products provider and the power behind the official UK plant security and registration scheme – CESAR, used the Driffield Show, the UK’s largest one day agricultural show, to launch a new security and identification system for all types of 4 x 4 vehicles. Datatag launched the new and innovative security system in conjunction with Humberside Police. Thieves have stolen 19 4x4 vehicles in the last 6 months in the Humberside patch.

**Industry Leaders Datatag and Tracker Announce Security Partnership**

Date: 30/06/2011

TRACKER, the UK leader in stolen vehicle recovery, was appointed in May by Datatag, on behalf of the Construction Equipment Association (CEA) and the Agricultural Engineers Association (AEA), as a service provider for CESAR – the official construction and agricultural equipment security and registration scheme. And now the 2 market leaders are promoting CESAR at Cereals 2011, being held this year near Lincoln.

**Volvo Minis CESAR Marked**

Date: 25/02/2011

Volvo Construction Equipment announced, at the opening of the Executive Hire Show, that 4 of its range of mini-excavators will be protected with CESAR security and registration. Construction machines are now 4 times more likely to be stolen than a car in the UK and mini-excavators are the most commonly stolen type, with over 800 stolen in the past 2 years, and so the move is a logical one!

Co-operative Farms Embrace CESAR

Date: 21/01/2011

The Co-operative farms around 50,000 acres of land in England and Scotland and has over 100 years of farming expertise, having been farming since 1896 when it bought its first farm to grow potatoes for its shops.

GEHL Skid-steer Loaders Adopt CESAR

Date: 21/01/2011

Visitors to this year’s LAMMA show (Newark showground February 19th & 20th) will be the first to see Gehl skid-steer machines with a CESAR security and registration plate after an announcement, last week, that Manitou UK Limited has adopted CESAR for its range of Gehl branded skid-steer loader.

CESAR Heads To Tillage And Saltex

Date: 25/08/2010

CESAR, the official agricultural equipment security and registration scheme, will be exhibiting at two important shows in the next few weeks. The first of the two shows is the three day Institute of Groundsmanship SALTEX held at the Windsor racecourse from Tuesday September 7th and the second the AEA organised Tillage 2011 which this year will be held near Lincoln on Tuesday September 14th.

CESAR Hot At LAMMA In The Cold

Date: 21/01/2011

The cold did not put off the hardy farming community which flocked to this year’s LAMMA show (Newark showground February 19th & 20th). Record crowds visited to see an array of expensive farming machinery.

CESAR Grows Its Product Range At LAMMA

Date: 13/01/2011

Hot on the heels of a record year CESAR heads to LAMMA set to announce a new ‘compact CESAR’ for smaller equipment. With over 40,000 CESAR registered machines working in construction and agriculture the scheme is the largest, and most successful, of its type anywhere in the world.

Thames Valley Police Boost CESAR Fitments

Date: 28/07/2010

Thames Valley Police has launched a new plant and rural crime reduction initiative involving CESAR, the official equipment security and registration scheme.

The initiative is aimed at reducing the theft of expensive agricultural and construction equipment in the area. In the 6 months from December 2009 there have been 115 incidents of tractor and plant theft in the Thames Valley area.

Lincolnshire Police Land Rover Discovery

Date: 06/07/2010

The Lincolnshire Police ‘Auto Crimes’ unit are showing their support for the CESAR scheme by promoting the official equipment security and registration scheme on one of their police vehicles - a Land Rover Discovery.

Lincolnshire is one of the ‘hot-spots’ for tractor thefts currently, with over 30 high value tractors stolen this year, which is why the police are promoting the CESAR scheme to farmers, farm contractors and agricultural equipment dealers around the large county.

CESAR Heads To Europe

Date: 22/10/2010

The adoption of CESAR as the official European wide equipment security and registration scheme took a step forward this week after a Europol conference at New Scotland yard.

The conference, organised by the Plant and Agricultural National Intelligence Unit (PANIU), was attended by 25 delegates from across Europe including Italy, Holland, Belgium, Spain, Sweden, and Serbia.

CESAR Hot At LAMMA In The Cold

Date: 21/01/2011

Visitors to this year’s LAMMA show (Newark showground February 19th & 20th) will be the first to see Gehl skid-steer machines with a CESAR security and registration plate after an announcement, last week, that Manitou UK Limited has adopted CESAR for its range of Gehl branded skid-steer loaders.

GEHL Skid-steer Loaders Adopt CESAR

Date: 21/01/2011

Visitors to this year’s LAMMA show (Newark showground February 19th & 20th) will be the first to see Gehl skid-steer machines with a CESAR security and registration plate after an announcement, last week, that Manitou UK Limited has adopted CESAR for its range of Gehl branded skid-steer loaders.

GESAR Grows Its Product Range At LAMMA

Date: 13/01/2011

Hot on the heels of a record year CESAR heads to LAMMA set to announce a new ‘compact CESAR’ for smaller equipment. With over 40,000 CESAR registered machines working in construction and agriculture the scheme is the largest, and most successful, of its type anywhere in the world.

Co-operative Farms Embrace CESAR

CESAR Heads To Europe

Date: 22/10/2010

The adoption of CESAR as the official European wide equipment security and registration scheme took a step forward this week after a Europol conference at New Scotland yard.

The conference, organised by the Plant and Agricultural National Intelligence Unit (PANIU), was attended by 25 delegates from across Europe including Italy, Holland, Belgium, Spain, Sweden, and Serbia.
Security Aware: John Deere to tag its tractors

Date: 03/2010

John Deere has said this week that all its Mannheim-built tractors will be fitted with the official Construction & Agricultural Equipment Security and Registration (CESAR) plus Datatag system as standard. Fitments will begin later this year and will cover all 5M and 5R Series, 6030 Standard and Premium Series and 7430 and 7530 models.

Finning Adopt CESAR® To Safeguard CAT® Customer Machines

Date: 02/03/2010

Finning, the UK’s sole supplier of Caterpillar® equipment, has today announced that it will fit the official CESAR plant registration and security system to all new Caterpillar machines that it supplies from March 1st. With over 26,000 machines registered in construction and agriculture CESAR, supported by the Home Office and the British Machinery Insurers Association, Finning said it was confident that the market leading scheme providing a powerful deterrent against theft and an assured way of identifying a machine in the unlikely event of theft.

CESAR® Sponsored Police Unit Get Their First Conviction

Date: 24/03/2010

Two plant thieves are starting prison sentences after a successful prosecution by the CESAR sponsored specialist Plant and Agricultural National Intelligence Unit of the Met Police.

Tree Surgeon Foils Thieves And Turns To Datatag

Date: 23/03/2010

A Wakefield tree surgeon foiled thieves who attempted to steal his Timberwolf woodchipper from a site in Wakefield. Simon Roberts jumped out of an apple tree and confronted the would-be thieves who were in the process of loading his £9,000 machine onto their Transit pick-up truck. Shocked at his approach the two men attempted to pass off their actions ‘as a joke’. And now Simon has turned to CESAR supplier Datatag to safeguard his machine to avoid a similar confrontation in the future.

JCB Roll-Out With CESAR At CEREALS

Date: 08/06/2010

JCB, the world renowned manufacturer, announced in April 2010 that it was to fit the CESAR security and registration system to all its agricultural machines sold in the UK and now machines are rolling off the production lines fully protected. This includes the range of JCB Loadall telescopic handlers, wheeled loading shovels, Robot skid-siper loaders, and the high-speed Fastrac tractors.

Case IH Adopt CESAR® To Protect Demonstration Fleet

Date: 19/05/2010

Case IH, the leading manufacturer of agricultural equipment, has just fitted CESAR to its fleet of demonstration tractors to protect them from theft. The sizable fleet, which regularly works across the length and breadth of the UK, includes Puma, Maquon, and Magnum models up to 335 h.p.

Balfour Beatty Protect New Fleet With CESAR

Date: 21/06/2010

Balfour Beatty Utility Solutions, one of the UK’s leading utility solutions providers, has specified CESAR to protect a fleet of 30 John Deere tractors. The new machines, supplied by Agricultural Industrial Services (AIS) Limited of Sudbury Derbyshire, will work on electricity distribution projects in remote locations. An approved technician, from Pintek Derby, fitted CESAR to the machines at Balfour Beatty’s Raynesway plant facility.

CESAR ‘Fingerprint’ Leads To The Recovery Of 3 Stolen Machines From Poland

Date: 24/06/2010

3 stolen machines are on their way back to the UK thanks to their unique CESAR ‘fingerprint’ and Datatag technology. Police in Poland suspected that 2 JCB Telescopic handlers and a JCB backhoe were stolen, but as the thieves had removed every single trace of identity and ‘cloned’ the machines with a new identity, the police could not prove it.

CESAR Much In Evidence At CEREALS 2010

Date: 15/06/2010

The 2010 Cereals exhibition was held in blustery conditions near Cambridge June 9th & 10th. CESAR, the only official security and registration scheme for construction and agricultural equipment, was much in evidence with CESAR plates on many of the market leading exhibits including machines from John Deere, Case-IH, Caterpillar, Manitou, and McCormick Landini. Over 23,500 visitors attended the busy show.

Security Aware: John Deere to tag its tractors

Date: 03/2010

John Deere has said this week that all its Mannheim-built tractors will be fitted with the official Construction & Agricultural Equipment Security and Registration (CESAR) plus Datatag system as standard. Fitments will begin later this year and will cover all 5M and 5R Series, 6030 Standard and Premium Series and 7430 and 7530 models.

Tree Surgeon Foils Thieves And Turns To Datatag

Date: 23/03/2010

A Wakefield tree surgeon foiled thieves who attempted to steal his Timberwolf woodchipper from a site in Wakefield. Simon Roberts jumped out of an apple tree and confronted the would-be thieves who were in the process of loading his £9,000 machine onto their Transit pick-up truck. Shocked at his approach the two men attempted to pass off their actions ‘as a joke’. And now Simon has turned to CESAR supplier Datatag to safeguard his machine to avoid a similar confrontation in the future.

The Official Construction and Agricultural Equipment Security and Registration Scheme

The Agricultural Industry Gets Behind CESAR

Date: 23/09/2009

The official CESAR security and registration scheme kicked off its drive into agriculture with united support from the industry at the annual Tillage equipment show organised by the Agricultural Engineers Association (AEA). Roger Lane-Nott, Chief Executive of the AEA, told the press that the agricultural industry needs to get behind this ground breaking scheme to help eradicate the growing problem of equipment theft.

Kubota Fit CESAR® To Star In Security Initiative

Date: 01/12/2009

Kubota, the market leader in the UK mini-excavator market, has today announced that it’s to fit the CESAR® registration and security system to two of its popular excavator models. The machines are the U17-3, a 1,650kg mini-excavator, and the KX080-3, a 8,300kg midi-excavator. As a consequence of the move both machines now qualify for the recently introduced ‘3 star’ security rating from the Insurance Industry Research Establishment, Thatcham.

Landini Tractors To Be Protected By Anti-theft Registration Scheme

Date: 06/11/2009

Farmers and contractors buying a new Landini tractor in 2010 can enjoy lower insurance premiums and their machines are less likely to be stolen thanks to joining an industry-leading initiative by distributor AgriArgo UK.

From January next year, all new Landini tractors will be registered with CESAR, the construction and agricultural equipment theft deterrence and vehicle identification scheme, free of charge.

The Agricultural Industry Gets Behind CESAR

Date: 23/09/2009

The official CESAR security and registration scheme kicked off its drive into agriculture with united support from the industry at the annual Tillage equipment show organised by the Agricultural Engineers Association (AEA). Roger Lane-Nott, Chief Executive of the AEA, told the press that the agricultural industry needs to get behind this ground breaking scheme to help eradicate the growing problem of equipment theft.

JCB ADOPTS CESAR® FOR AGRICULTURE

Date: 23/01/2010

JCB, the market leader in construction and agricultural machines, has just announced that from April 2010 it will fit the CESAR security and registration system to all its agricultural machines sold in the UK through its dealer network. This includes its range of JCB Loadall telescopic handlers, wheeled loading shovels and the high-speed Fastrac tractors.

CESAR is the official equipment security and registration scheme that has wide support, in the agricultural and construction worlds, from the Agricultural Engineers Association, the Construction Equipment Association, the Home Office and the British Machinery Insurers Association.

Kubota Fit CESAR® To Star In Security Initiative

Date: 01/12/2009

Kubota, the market leader in the UK mini-excavator market, has today announced that it’s to fit the CESAR® registration and security system to two of its popular excavator models. The machines are the U17-3, a 1,650kg mini-excavator, and the KX080-3, a 8,300kg midi-excavator. As a consequence of the move both machines now qualify for the recently introduced ‘3 star’ security rating from the Insurance Industry Research Establishment, Thatcham.

McCormick Tractors To Be Protected By Anti-theft Registration Scheme

Date: 09/11/2009

Farmers and contractors buying a new McCormick tractor in 2010 can enjoy lower insurance premiums and their machines are less likely to be stolen thanks to joining an industry-leading initiative by distributor AgriArgo UK.

From January next year, all new McCormick tractors will be registered with CESAR, the construction and agricultural equipment theft deterrence and vehicle identification scheme, free of charge.

Landini Tractors To Be Protected By Anti-theft Registration Scheme

Date: 06/11/2009

From January next year, all new McCormick tractors will be registered with CESAR, the construction and agricultural equipment theft deterrence and vehicle identification scheme, free of charge.
**CESAR reaches star status**  
**Date:** 18/05/2009  
Datatag ID Limited, the market leader in security marking and the power behind the Official Construction Equipment Security and Registration Scheme (CESAR) has gained a prestigious Quality Assurance Accreditation from Thatcham, the Motor Insurance Repair Research Centre for its vehicle identification and registration system-CE- SAR.

**BELL equipment adopt CESAR for the New Year**  
**Date:** 23/12/2008  
Bell Equipment UK has joined the growing band of construction equipment manufacturers to fit the Datatag security system and register its new machines with the Construction Equipment Security and Registration (CESAR) scheme prior to delivering them to their customers.

**AMMANN equipment adopt CESAR on financed machines**  
**Date:** 21/11/2008  
Ammann Equipment has just announced that it’s joined the list of enlightened manufacturers registering machines with the CESAR scheme. Ammann Equipment sells Ammann compaction equipment and Yanmar mini-excavators in the UK. CESAR registration will be provided to customers buying new equipment and financing it through Ammann finance, which accounts for around 85% of all sales. CESAR will be offered as an option to customers who arrange alternative finance.

**CESAR at the 2008 CECE Congress**  
**Date:** 04/11/2008  
The Construction Equipment Security and Registration (CESAR) scheme was on the agenda at the Committee for European Construction Equipment (CECE) Congress held in York October 16th-18th. Rob Oliver Chief Executive of the Construction Equipment Association (CEA) presented the scheme to the 200 European delegates and showed a specially commissioned 8 minute CESAR video on the morning of Friday 17th.

**Stolen skid-steer identified and recovered in Sharjah**  
**Date:** 09/10/2008  
A stolen JCB skid-steer loader has been identified and recovered in Sharjah in the United Arab Emirates thanks to the help of Datatag. The machine belonging to A-Plant was registered with the CESAR (Construction Equipment Security and Registration) scheme and fitted with the Datatag security system.

**TAKEUCHI join the CESAR club**  
**Date:** 10/09/2008  
Takeuchi, a leading manufacturer of mini excavators and tracked dozers, is set to become the latest in a distinguished list of manufacturers to fit the Datatag system and register their machines with the CESAR scheme. This will start September 1st.

**BOBCAT West Midlands to fit CESAR to compact equipment**  
**Date:** 04/08/2008  
All new Bobcat® skid-steer loaders, compact excavators and telescopic handlers supplied by Bobcat West Midlands are to be fitted with the Datatag security system and registered with the CESAR scheme from August 1st, combating construction plant theft, running at £300-500m annually.

**BOMAG to protect tandem rollers with CESAR registration and the DATATAG security system**  
**Date:** 15/07/2008  
BOMAG, the market leader in compaction, has just announced that from July 1st it will be fitting Datatag security devices and registering all Tandem Vibratory Rollers it sells through its network of compaction Centres in the UK with the official CESAR scheme. Commenting on the move BOMAG (G.B.) Managing Director Alan Batty had this to say………”We’ve been aware of the CESAR scheme since its inception and have monitored its adoption rate by excavator manufacturers and the like.

**HANIX - First mini excavator manufacturer for CESAR O/E – standard fitment**  
**Date:** 09/07/2008  
From 1st July 2008, Hanix Europe Ltd will fit CESAR Identification Technology to its entire range of Excavators. With Mini Excavators being an important addition, throughout building and construction sectors, particularly for ground works and landscaping, they are recognised as a particularly high-risk equipment area in the construction market. Because of their portability – a flatbed trailer can be sourced to transport mini excavators very quickly – as a result they have become a ready target for theft.

*This is a summary of the News & Recent Developments for the CESAR Scheme and full details can be found and downloaded from our website listed below.*

www.cesarscheme.org | enquiries@cesarscheme.org
CESAR Scheme wins international security award

Date: 15/05/2008

Success of combating construction industry plant theft acknowledged at National Vehicle Crime Conference.

CESAR – The Construction Equipment Security and Registration Scheme – has been awarded the 2008 W. Peter Leigh Award by the International Association of Auto Theft Investigators. At the annual National Vehicle Crime Conference at the Heritage Motor Centre, Gaydon on May 7-8th.

CESAR set to make big impact at SED

Date: 12/05/2008

Construction Industry show to spotlight success of CESAR identification technology in countering £300-500m Plant and Equipment theft.

With CESAR “the Official Registration Scheme” having recently passed the 10,000th customer milestone and the number of installations continuing to grow across the UK, the SED exhibit (Stand 541, Site Equipment Zone, Avenue Q) highlights increasing manufacturer involvement and the role of Police Forces in combating construction plant theft, running at £300-500m annually.

Concrete mixer manufacturer NU Rock latest to fit CESAR as standard

Date: 12/05/2008

With immediate effect, CESAR identification Technology is now fitted to the entire range of on-site concrete mixers, manufactured by Mersyside-based NU Rock. The company has been designing, manufacturing and operating batch on-site concrete mixers since 1967 and are the acknowledged leaders in the specialist area, of volumetric mixers. With an outstanding reputation for service and support, the decision to adopt CESAR is a further extension of NU Rock’s customer focused approach.

Agricultural sector ready to counter soaring plant and vehicle theft with CESAR identification technology

Date: 15/05/2008

Concern is mounting, where agricultural and farming sectors are experiencing massive increases in the incidence of tractor and equipment theft, with few items recovered and losses running into tens of millions at a conservative estimate. With many locations either remote or unprotected in security terms, by the time such thefts have been discovered, the perpetrators are long gone. There is also strong likelihood that the stolen equipment has been sold on to an unsuspecting purchaser.

Manitou becomes 1st manufacturer to fit CESAR as standard to agricultural & construction equipment

Date: 07/03/2008

From 2nd April 2008, CESAR identification Technology will be fitted to all Manitou equipment for the Construction and Agricultural sectors. The ACPO and Home Office supported Identification Technology scheme combats equipment theft, estimated in the Construction sector alone to be running at a massive annual total of around £500m per annum.

CESAR plant recovery under investigation

Date: 20/05/2008

Stolen on Sunday. Reported on Monday. Recovered on Wednesday. Returned on Thursday!!!!

38 Police forces across the UK have been involved in Operation CRASSUS, a strategic campaign to combat plant and equipment theft, running from 27/04/08 and finishing on 11/05/08, Operation CRASSUS was a two-week national campaign involving every UK Police force and VGRAT (Vehicle Crime Reduction Accident Team).

£1.1 million stolen equipment recovered in just two weeks!

Date: 30/06/2008

Between 26th April and 11th May 2008 the National Roads Policing Intelligence Forum (NRPIF) together with the ACPO Vehicle Crime Intelligence Service (AVCIS) and Police Forces around the UK took part in Operation Crassus to try to identify the amount of stolen plant being moved on the strategic road network.

The newly formed Plant and Agricultural National Intelligence Unit supported them.

CESAR identification technology reaches milestone with 10,000th customer

Date: 18/04/2008

From 2nd April 2008, CESAR Identification Technology will be fitted to all Manitou equipment for the Construction and Agricultural sectors. The ACPO and Home Office supported Identification Technology scheme combats equipment theft, estimated in the Construction sector alone to be running at a massive annual total of around £500m per annum.
RECENT NEWS & DEVELOPMENTS

CESAR technicians approach 200 as UK construction plant identification soars

Date: 06/03/2008

CESAR the Construction Equipment Security and Registration Scheme initiated to counter construction plant theft – estimated to be running at over £00m per annum – reports the number of CESAR-trained technicians approaching the 200 mark as it expands nationwide. Combating Plant Theft is a major concern for the construction industry, with the consequent issues of disruption, potential contract slippage and disrupted site labour. The CESAR scheme is increasingly being recognized as a genuine crime deterrent by manufacturers and operators alike.

CESAR website launch boosts fight against plant theft

Date: 05/03/2008

User-friendly website links contractors, manufacturers and dealers with CESAR promoted by CEA and powered by Datatag Identification Technology.

NC Engineering latest to adopt CESAR identification technology

Date: 04/02/2008

NC Engineering, the Hamiltonsbawn, Belfast, N1 manufacturer of skid lifters for construction, industrial and agricultural usage, has become the latest supporter of the CESAR scheme, installing it as standard on all vehicles.

Scottish Councils and Police Forces back the CESAR Scheme

Date: 04/02/2008

CESAR – the Construction Equipment Security and Registration Scheme is going from strength to strength as “state of the art” identification technology installations continue to surge ahead on a nationwide basis. In Scotland, many of the local authorities are making the CESAR Scheme mandatory on all plant and construction equipment.

JCB sets the standard with twin attack on plant theft

Date: 03/02/2008

JCB today launches a two-pronged attack on plant theft by announcing proposals to fit machines with CESAR and immobilisers as standard. With one-in-three of all machines sold in the UK made by JCB, the decision to install CESAR is a major step forward in the clampdown against plant theft and means the company is the first major plant manufacturer to implement the system.

TEREX supply leading hire company A-Plant machines with factory fitted CESAR system – an industry first

Date: 03/02/2008

Terex are the first construction equipment manufacturer to provide customers with the Datatag CESAR system as a factory fit on construction machinery, with leading UK rental company A-Plant taking the first machines.

The number’s up for Clancy Docwra plant theft as construction giant signs up to CESAR

Date: 03/02/2008

Clancy Docwra one of the leading national construction companies in the UK Utilities sector, has become the latest to sign up to CESAR – the Construction Equipment Security and Registration Scheme. This important Home Office supported - industry wide initiative supported by the Plant Theft Action Group (PTAG) and overseen by the Construction Equipment Association (CEA) is gathering momentum fast in the campaign to stamp out construction plant theft, estimated to be costing at an annual total of £100 million.

Doosan is first manufacturer to identify its equipment as part of the CESAR Scheme

Date: 02/02/2008

Doosan Infracore UK is the first construction equipment manufacturer to fit Datatag Systems as standard to its full range of excavators, wheeled loaders and skid steer loaders as part of the Construction Equipment Security and Registration (CESAR) scheme developed by the influential Plant Theft Action Group (PTAG) in conjunction with the Construction Equipment Association (CEA).

Doosan Infracore UK is the first construction equipment manufacturer to fit Datatag Systems as standard to its full range of excavators, wheeled loaders and skid steer loaders as part of the Construction Equipment Security and Registration (CESAR) scheme developed by the influential Plant Theft Action Group (PTAG) in conjunction with the Construction Equipment Association (CEA).

CESAR - The Construction Equipment Security and Registration Scheme - Launch

Date: 01/02/2008

May 2006 saw a major initiative in the campaign to stamp out crime in the construction industry when in excess of 20 companies were invited to tender to the Plant Theft Action Group to implement a unique security and registration scheme – a first for the sector. Datatag – the European market leader in security identity systems within the Motorcycle, ATV, Scooter, Trailers, Boats, IT, Cycle, Jet Ski and Construction & Plant sectors – underwent a rigorous tendering and selection process before a final submission to the Construction Equipment Association and was announced as the winning company in November 2006.
